

# Data Science Summit 2017

Monday, December 4 (09.00 – 18.00 hrs)

TU/e Auditorium

Join our annual networking event where we present our five research programs through inspiring talks, demos, and poster presentations. Meet colleagues from industry and academia to expand existing cooperation or start new ones. Registration is required (free of charge).

- 09.00 Registration & coffee
- 10.00 Opening by Isolde Hallensleben
- 10.15 Keynote – Rakesh Agrawal (Data Insights Laboratories)  
**Big data or big garbage? A tale of a research journey for real-time business intelligence**
- 11.00 Posters & coffee
- 11.30 Smart Manufacturing & Maintenance – Joep Stokkermans (Nexperia)  
**Smart Manufacturing: the organization towards organism**
- 12.15 Internet of Things – Roberto Minerva (Telecom Sud Paris)  
**The quest for data and the virtual continuum**
- 13.00 Posters & lunch
- 14.15 Customer Journey – Stefan Kramer (Johannes Gutenberg University Mainz)  
**The best privacy defense is a good privacy offense: obfuscating a search user's profile**
- 15.00 Health Analytics – Leone Flikweert (PAZIO)  
**Access to your own medical data: a matter of trust**
- 15.45 Quantified Self –  
Derek Karssenbergh (Utrecht University)  
**Quantifying the exposome: challenges and solutions in geocomputation**
- 16.30 Networking & drinks
